## PROFESSIONAL SUMMARY

Results-driven AI Automation Specialist with 6+ years of experience designing and implementing advanced automation systems, high-converting sales funnels, and scalable AI-driven infrastructures. Specialized in GoHighLevel (GHL), n8n, Make.com, and Zapier to build complete business ecosystems that automate lead generation, client communication, and revenue operations. Proven track record of increasing operational efficiency by 30–40% and delivering full automation solutions from scratch for international clients.

## PROFESSIONAL EXPERIENCE

### Founder & AI Automation Specialist — Mortal VA (2023 – Present)

- Founded and scaled a virtual assistant agency focused on AI-powered automation solutions for global clients
- Built and managed a remote team handling operations, automation, and client support
- Developed AI chatbots and voice agents for lead generation, customer service, and appointment setting
- Created complete automation systems including CRM pipelines, onboarding flows, and internal workflows
- Built 5+ automated websites and funnels with integrated lead capture and follow-up systems
- Delivered measurable results including 30–40% efficiency improvements and cost reduction

### AI Automation Consultant — GMC LLC (2024 – 2026)

- Built and launched full business infrastructure from scratch using GoHighLevel, n8n, Make.com, Zapier, and Hostinger
- Developed a complete website and funnel ecosystem including Book-a-Call funnel (with upsell/downsell), eBook funnel, and high-ticket offer funnel
- Fully configured GoHighLevel CRM including smart lists, tagging, pipelines, calendars, forms, and products
- Integrated AI agents, WhatsApp automation, phone systems, and marketing campaigns
- Designed advanced automation workflows for lead management, follow-ups, and onboarding
- Recruited and managed a team for invoicing, customer service, and administrative operations
- Delivered a fully automated, scalable system supporting business growth

### AI Automation Specialist — Helping Hands Systems (2025)

- Designed and implemented automation systems for digital business operations
- Built workflows for lead generation, onboarding, and communication
- Integrated APIs and tools to streamline operations

### Sales & Customer Service — Total Post N Print (2024–2025)

- Managed client relationships and closed deals
- Handled invoicing, support, and internal coordination
- Trained new team members

### Real Estate & Solar Cold Caller (2019–2022)

- Generated high-quality leads and booked appointments
- Worked with real estate and solar companies to drive revenue
- Developed strong negotiation and closing skills
