PROFESSIONAL SUMMARY

Results-driven AI Automation Specialist and Funnel Engineer with 6+ years of experience designing and implementing advanced automation systems, high-converting sales funnels, and scalable AI-driven infrastructures. Specialized in GoHighLevel (GHL), n8n, Make.com, and Zapier to build complete business ecosystems that automate lead generation, client communication, and revenue operations. Proven track record of increasing operational efficiency by 30–40% and delivering high-ROI sales funnels and automation architectures from scratch.

PROFESSIONAL EXPERIENCE

Lead Funnel Engineer & Automation Architect — Fusion 44X (2026)

- Architected the flagship Fusion 44X direct-response funnel backed by Supabase database and a real-time metrics dashboard.
- Engineered full Meta event tracking with per-visit session creation and lead source attribution across all acquisition channels.
- Built automated multi-channel follow-up sequences triggered instantly after form and calendar submissions, ensuring zero missed leads.

Full-Stack LMS & Automation Architect — LingoVantage (2025 – 2026)

- Engineered a comprehensive online English learning platform with automated signup/login and tiered student portals (A1, A2, etc.).
- Built Supabase database infrastructure with an admin dashboard for granting and revoking student access.
- Deployed an auto-graded placement exam, interactive tests, and homework submission pipelines with real-time Telegram-to-WhatsApp registration dispatch.

Founder & AI Automation Specialist — Mortal VA (2023 – Present)

- Founded and scaled a virtual assistant agency focused on AI-powered automation solutions for global clients.
- Built and managed a remote team handling operations, automation, and client support.
- Developed AI chatbots and voice agents for lead generation, customer service, and appointment setting.
- Created complete automation systems including CRM pipelines, onboarding flows, and internal workflows.
- Built 5+ automated websites and funnels with integrated lead capture and follow-up systems.
- Delivered measurable results including 30–40% efficiency improvements and cost reduction.

AI Automation Consultant — GMC LLC (2024 – 2026)

- Built and launched full business infrastructure from scratch using GoHighLevel, n8n, Make.com, Zapier, and Hostinger.
- Developed a complete website and funnel ecosystem including Book-a-Call funnel (with upsell/downsell), eBook funnel, and high-ticket offer funnel.
- Fully configured GoHighLevel CRM including smart lists, tagging, pipelines, calendars, forms, and products.
- Integrated AI agents, WhatsApp automation, phone systems, and marketing campaigns.
- Designed advanced automation workflows for lead management, follow-ups, and onboarding.
- Recruited and managed a team for invoicing, customer service, and administrative operations.
- Delivered a fully automated, scalable system supporting business growth.

AI Automation Specialist — Helping Hands Systems (2025)

- Designed and implemented automation systems for digital business operations.
- Built workflows for lead generation, onboarding, and communication.
- Integrated APIs and tools to streamline operations.

PROFESSIONAL EXPERIENCE (CONTINUED)

Sales & Client Operations Lead — Total Post N Print (2024 – 2025)

- Managed client relationships, closed enterprise deals, and handled invoicing, support, and internal coordination.
- Mentored and trained incoming team members in pipeline management and support.

Lead Generation & Cold Outreach Specialist — Wholesale Real Estate & Solar (2019 – 2022)

- Generated high-quality leads and booked qualified appointments across real estate and solar sectors.
- Mastered phone sales negotiation, establishing the core domain expertise used in voice AI agent scripting.
